

Guideline for Featuring QF in Certificates

Qualifications Framework

The Qualifications Framework (QF) is established by the Secretary for Education under the Accreditation of Academic and Vocational Qualifications Ordinance to provide a platform to promote lifelong learning. It is a hierarchy to order and support qualifications in the academic, vocational and professional, and continuing education sector.

Featuring QF in Certificates

To promote wider awareness and transparency of QF in Hong Kong, education and training providers are encouraged to feature key elements of QF in the certificates awarded to graduates of learning programmes that have been accredited under QF and are within the validity period. The key elements include the QF logo, the QF level of the learning programme and its registration number on the Qualifications Register (QR).

QF Logo

The logo is a trademark designed to signify and represent QF. The logo may be used in the promotion and publicity of QF. The logo has been registered by the Secretary for Education under the Trademark Ordinance, Cap 559. The QF logo should not be used in any way which would cause damage to the reputation of the QF. The design and colour of the QF logo as shown in Annex 1 should be followed.

The use of the QF logo is subject to the discretion of the Secretary for Education. The Secretary may at any time withdraw permission for using the QF logo.

QF Level (資歷架構級別)

The QF Level shown on the certificate must be the same as that shown on the QR.

QR Registration Number (資歷名冊登記號碼)

The QR Registration Number shown on the certificate must be the same as that shown on the QR.

While education and training providers may design their own certificates, they are encouraged to show all three key elements of QF (i.e. QF logo, QF level and QR registration number) and position them to be logically seen as one set of information on the certificates. Some examples are provided in [Annex 2](#) for reference.

The Use of the QF Logo
