

1. Title	Aircraft instrument landing system components repair
2. Code	EMAMAV430A
3. Range	Aircraft instrument landing system components repair activity is usually carried out in a specialist bay or workshop on components that have been removed from the aircraft,e.g. controllers
4. Level	4
5. Credit	9
6. Competency	<p style="text-align: center;"><u>Performance Requirement</u></p> <p>6.1 Working principles</p> <ul style="list-style-type: none"> ◆ Understand the working principles for the aircraft instrument landing system. <p>6.2 Methods and procedures</p> <ul style="list-style-type: none"> ◆ Able to review the maintenance documents and procedures to decide on maintenance task,e.g. confirm fault, repair, modify ◆ Able to prepare the work area, obtain and check the resources for serviceability or status in accordance with the procedures,e.g. publications, materials, tools, equipment, safety equipment, environmental conditions established. ◆ Able to confirm the component identification is matched with the documentation. ◆ Able to prepare the component for repair in accordance with the procedures,e.g. clean, inspect, assess economics of carrying out repair. ◆ Able to determine and record the next task in accordance with the procedures,e.g. locate defects, repair, test, adjust, complete the task.

	<ul style="list-style-type: none">◆ Able to locate the defects using troubleshooting techniques and inspection procedures appropriate to the defects indications in accordance with the procedures.◆ Able to report and record the defects in accordance with the procedures.◆ Able to disassemble the component in accordance with the procedures,e.g. clean, label, preserve, segregate, store.◆ Able to determine and record the rectification action in accordance with the procedures.◆ Able to procure the replacement parts and verify their authenticity and serviceability in accordance with the procedures,e.g. identify, inspect.◆ Able to assemble the component in accordance with the procedures.◆ Able to rectify the defects in accordance with the procedures,e.g. repair, replace, modify, adjust.◆ Able to perform inspections in accordance with the procedures,e.g. independent, progressive.◆ Able to prepare the component for test in accordance with the procedures.◆ Able to test and adjust the component in accordance with the procedures,e.g. troubleshoot, functionally test, calibrate, adjust, document adjustments and performance.
