

1. Title	Aircraft fire protection systems maintenance	
2. Code	EMAMBG414A	
3. Range	Repair or servicing of fire protection systems in aircraft in an aircraft hangar or workshop during the aircraft grounded time.	
4. Level	4	
5. Credit	4	
6. Competency	<p style="text-align: center;"><u>Performance Requirement</u></p> <p>6.1 Knowledge</p> <ul style="list-style-type: none"> <li>◆ Understand the construction and working principles for the fire protection systems in aircraft, including : <ul style="list-style-type: none"> <li>• fire and smoke detection and warning systems</li> <li>• fire extinguishing systems</li> </ul> </li> </ul> <p>6.2 Methods and procedures</p> <ul style="list-style-type: none"> <li>◆ Able to review the maintenance documents and procedures to decide on maintenance task.</li> <li>◆ Able to obtain and check the resources for serviceability in accordance with the procedures, e.g. publications, tools, equipment, safety equipment, materials.</li> <li>◆ Able to prepare the systems for the application of power and system operation in accordance with the procedures, e.g. cockpit controls match component positions, clearances, isolation tags, warning signs.</li> <li>◆ Able to prepare the ground and/or support equipment for aircraft fire protection systems maintenance activities in accordance with the procedures.</li> </ul>	

6.3 Professional approach

- ◆ Able to confirm the system to be maintained is matched with the aircraft registration and documentation.
- ◆ Able to determine the serviceability in accordance with the procedures, e.g. inspect, troubleshoot, assess, test.
- ◆ Able to report and record the defects in accordance with the procedures.
- ◆ Able to rectify the defects by the approved method in accordance with the procedures, e.g. repair, replace, modify, adjust.
- ◆ Able to procure the replacement parts and verify their authenticity and serviceability in accordance with the procedures, e.g. identify, inspect.
- ◆ Able to test the aircraft fire protection system to verify their serviceability in accordance with the procedures.
- ◆ Able to perform inspections in accordance with the procedures.
- ◆ Able to understand the legislative requirements, aviation authority requirements, manufacturers' publications and the maintenance organizations' approved maintenance practices and requirements in carrying out the work and maintaining the airworthiness of aircraft.
- ◆ Able to complete the task within the stipulated duration.
- ◆ Able to follow instruction manuals to repair and maintain the systems e.g. replacement of fire bottles.

	<ul style="list-style-type: none"> <li>◆ Able to complete the task in the work area in accordance with the procedures, e.g. tool control, cleanliness, tidiness, return of publications, systems and aircraft left for next activity.</li> <li>◆ Able to check the resources for serviceability and returned to service or storage in accordance with the procedures, e.g. tools, equipment, safety equipment.</li> <li>◆ Able to handle the unused parts and materials in accordance with the procedures, e.g. serviceable, unserviceable, surplus, waste, scrap, hazardous.</li> <li>◆ Able to complete the documentation in accordance with the procedures.</li> </ul>
7. Assessment Criteria	<p>The integral outcome requirement of this UoC are:</p> <ul style="list-style-type: none"> <li>(i) Able to make preparation for maintenance of aircraft fire protection systems.</li> <li>(ii) Able to locate the defects in fire protection systems.</li> <li>(iii) Able to restore the airworthiness of fire protection systems.</li> <li>(iv) Able to complete all the requirements associated with the task.</li> </ul>
8. Remarks	<p>(Ref: HKAR-66 Module 11.8 &amp; 12.10)</p> <p>The Credit in this UoC is on the assumption of the person already possessed basic knowledge in the manipulation of common tools.</p> <p>Ref: NZQA - 3407</p>
