1. Title	Use computer to draw mechanical drawings
2. Code	EMCUDE212A
3. Range	Use typical computer software to draw mechanical drawings for electrical and mechanical work according to design.
4. Level	2
5. Credits	8
6. Competency	Performance Requirements
	6.1 Computer  drawing drawing techniques and methods, including the knowledge of drawing specifications, machinery to be drawn and pneumatic symbols methods
	<ul> <li>Application of computer drawing</li> <li>Set the drawing specifications</li> <li>Use all types of lines, layers and typeface</li> <li>Open and save file</li> <li>Use the computer to draw geometric figures, including mechanical and pneumatic symbols</li> <li>Use the computer to draw mechanical drawings according to design</li> <li>Draw mechanical layouts</li> <li>Draw projected mechanical parts</li> <li>Draw sectional views for mechanical parts</li> <li>Use the computer to draw the pneumatic system according to design</li> <li>Draw the pneumatic system's layout according to the pneumatic design</li> <li>Draw the electric control circuit of the pneumatic system according to the circuit design</li> </ul>
7. Assessment Criteria	The integrated outcome requirement of this unit of competency is:  (i) Capable to use computer to draw mechanical layouts, projection and sectional views of mechanical equipment and parts according to design; and  (ii) Capable to use computer to draw the pneumatic control layouts for a whole pneumatic system
8. Remarks	unit of an industrial plant with general requirements and specifications according to design.  The credit value of this unit of competency is set on the presumption that the person already possesses basic computer knowledge.
