1. Title	Use general plate bending machines
2. Code	EMCUIN110A
3. Range	Use general-purpose plate bending machines for simple assembly and machining of electrical and mechanical parts in industrial plants.
4. Level	1
5. Credits	9
6. Competency	Performance Requirements
	6.1 Structure and code of safety for machine plate bending → Understand major parts of general plate bending machines machine → Understand the operation of general plate bending machines and their limitations 6.2 Use general plate → Use general plate bending machines correctly according to the code bending machines → Capable to operate and adjust general plate bending machines correctly to bend the metal plates to different angles for simple assembly and machining of electrical and mechanical parts
7. Assessment Criteria	The integrated outcome requirement of this unit of competency is:
	(i) Capable to operate and adjust general plate bending machines correctly, according to the code of safety and operation, to bend the metal plates to different angles for simple assembly and machining of electrical and mechanical parts.
8. Remarks	The credit value of this unit of competency is set on the presumption that the person already possesses basic knowledge of workshop mechanics.
