1. Title	Formulate project procedures and schedule
2. Code	EMCUPM501A
3. Range	Formulate project procedures and schedule for electrical and mechanical services according to the specifications, scope and targets of the project.
4. Level	5
5. Credit	9
6. Competency	Performance Requirements
	6.1 Principles and techniques of electrical and techniques of electrical and mechanical engineering project management, including the formulation of project procedures, schedule, contingency plan and review mechanism 6.2 Formulate A Droft project procedures
	 Formulate procedures, schedule, contingency plans and review mechanism for electrical and mechanical projects Pay attention to safety, health and environmental protection ordinances and codes, the protection of intellectual property and quality management system of the organization when drafting project schedule Apply project management techniques to formulate project schedule according to the contract and related information as well as project procedures drafted and the following arrangements: Critical path and flow chart Arrangements of human resources Formulate contingency mechanism Conduct risk assessment for the project to ensure that targets of the project be achieved
7. Assessment Criteria	The integrated outcome requirements of this unit of competency are:
	(i) Capable to formulate project procedures and schedules for electrical and mechanical projects according to the project specifications and targets; and (ii) Capable to formulate effective review check points and review mechanism for the projects.
8. Remarks	(ii) Capable to formulate effective review check points and review mechanism for the projects. The credit value of this unit of competency is set on the presumption that the person already possesses knowledge of operation management.
