

**Specification of Competency Standards**  
**for the Printing and Publishing Industry**  
**Unit of Competency**

1. Title	Understand basic computer and network technology
2. Code	PPPRIT301A
3. Level	3
4. Credit	6
5. Competency	<p style="text-align: center;"><u>Performance Requirements</u></p> <p>5.1 Apply network technology</p> <ul style="list-style-type: none"> <li>◆ Know network connection to device used in printing flow</li> <li>◆ Make use of printing job platform supported by network technology</li> <li>◆ Make appropriate use of network technology to support various printing connection</li> </ul> <p>5.2 Know network file management techniques</p> <ul style="list-style-type: none"> <li>◆ Know network processing of printing files</li> <li>◆ Understand access rights and security in relation to files during printing flow</li> </ul> <p>5.3 Know transfer protocol</p> <ul style="list-style-type: none"> <li>◆ Use appropriate transfer method and transmission protocol for connection to printing system device</li> <li>◆ Use printer driver program correctly for output</li> </ul> <p>5.4 Assist in network connection for printing flow device</p> <ul style="list-style-type: none"> <li>◆ Assist in network connection for printing flow device by making use of computer network technology in addition to appropriate transfer method, transmission protocol, access rights and security</li> </ul>

6. Range	Assist in network connection for printing flow device by making use of computer network knowledge and perform related tasks for information technology department of a printing enterprise.
7. Assessment Criteria	The integrated outcome requirements of this unit of competency are: (i) Able to assist in network connection for printing flow device by making use of computer network knowledge and perform related tasks.
8. Remarks	The credit value of this unit of competency is based on the assumption that the learner has basic knowledge of computer operation.
